design**

BASK6-T

PASSIVE SPEAKER

The BASK loudspeakers have been designed for the contractor market and supply you with a crystal clear sound, from back ground music up to "dance level" music.

BASK series have a unique and very stylish innovative design. The loudspeakers can be used with their grill, what gives them a soft and gentle look. Taking the grill away transfers the BASK-6T into a sportive looking and robust loudspeaker. The internal bracketting and the shape of the cabinet avoids internal interference and optimises the sound quality of the BASK-6T.
